Pay

Pay for building and construction managers varies depending on their specific role, the size and location of the project they are working on, and their experience and qualifications.

- Construction project managers usually earn **\$100K to \$224K** a year.
- Senior construction project managers, senior construction managers and project directors can earn more than this.

Source: Hays, 'Salary Guide FY 23/24', 2023.

Job opportunities

Demand for building and construction managers is strong due to a shortage of skilled workers and ongoing growth in construction projects nationwide.
